EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given via email on 02 December 2, 2004 from Mr. Ryan Schneider. The application has been amended as follows:

In claim 41, line 3, after 'process' add the following:

-- wherein calibration process includes the steps of projecting an image onto the whiteboard detecting a touch point on the whiteboard corresponding to the projected image, and calculating a relationship between the touched point on the whiteboard corresponding to the projected image and a position on the display device.--

Cancel claims 43

The amendment to claim 41 was made to define over the applied prior art. This process is deemed to be non-obvious over the processes of the prior art.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 41:

The primary reason for the allowance of claim 41 is the inclusion of the method step of: initiating the calibration process, wherein calibration process includes the steps of projecting an image onto the whiteboard detecting a touch point on the whiteboard

corresponding to the projected image, and calculating a relationship between the touched point on the whiteboard corresponding to the projected image and a position on the display device. It is this feature found in the claim, as it is claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Claims 22 and 44 are allowed due to their dependency on claim 41.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aditya S Bhat whose telephone number is 571-272-2270. The examiner can normally be reached on M-F 9-5:30.
